Date: May 2, 2012

Subject: Public Works activities for the Month of April 2012

STORMWATER

Public Works led a successful Quantico Creek Clean up day on Saturday March 28, we reported 31 volunteers assisted with our efforts. We cleaned up 13 tires, car bumpers and many other car parts, boat motors, signs, housing materials and other debris in excess of 800lbs. We also picked up 72 bags of trash and 65 bags of recycling materials.

Public Works continued with our field inspections as part of a comprehensive inspection of our storm water management system.

Our crew Street sweeping and litter control continued throughout the Town.

Street sweeping and litter control was done throughout the Town this month. These efforts reduce the amount of trash and debris that end up in Quantico Creek and its tributaries.

Public Works has continued to monitor Rippon Middle School children regarding the monthly sampling from several locations along Quantico Creek and testing them for bacterial content.

PLAN REVIEW/PERMITS

The Department reviewed multiple building plans, site plans, and grading plans for pending construction. Building permit inspections and Occupancy Permit inspections were performed by the Town's on-call building inspection and residential inspection services consultant.

TRANSPORTATION/ROADS

Tripoli Boulevard Drainage Improvement Project - Right of way acquisition is underway. Public Works staff will notify council via email as to progress with regard to the right of way efforts and additional progress with regard to the advertisement date.

Main Street Intersection Project – The surveying for the project is substantially complete and the conceptual design of the intersection project is underway. Conceptual design includes the identification of right of way impacts, drainage impacts, and utility impacts. The current schedule follows:
